### **DIRECTOR'S NOTES**

I fell in love with "The Music Man" before I was old enough to read all the album's liner notes. My Great-Aunt Hazie believed in exposing children to all kinds of music, so in addition to my Disney records I had Broadway shows, operas, and people reading poetry. (Remember record players? They were before CD players and even before cassette tapes!)

But of all my albums, "Music Man" was my very favorite. I loved all the songs (still do), and could sing along with every single one. Yes, that means I DO know all the words to "Trouble".

What is it about this show that has made it endure? For over thirty years, it has been a favorite show for millions of people. It crosses barriers of age, race, gender, and background.

Why?

My theory is that "Music Man" tells us things about human beings that all of us prefer to believe - that people are basically good, that the good guys win in the end, and that love really does conquer all.

Not a bad view of the world (and if it qualifies me for the Home for the Terminally Naive, who cares?).

Most of our cast and crew already qualify as River City people - only, our river is the Ohio rather than the Mississippi. We welcome you to this world of traveling salesmen, prim librarians, and ice cream socials on summer nights when miracles can occur.

You see, like Harold Hill, we always think there's a band. Enjoy!
